

SLEWING RINGS

Our **OEM Slewing Rings** provide the reliability you require, at a price well below OEM prices. You will be hard-pressed to find a better alternative for your machine.

We offer new and used slewing rings (a.k.a. ring gear, ring bearing, slewing ring bearing, swing bearing, turntable bearing) for a variety of different manufacturers and machines.

We also offer used slewing rings that are opened and inspected, high-wear parts are replaced as needed to bring the part back to its highest performance, and the slewing ring is then re-sealed. This process extends the life of the part, giving you a less expensive option than new OEM parts, but still retaining the quality standards you desire. As with all our products, our used slewing rings come with an excellent warranty and satisfaction guarantee.

H&R Has Partnered With A Major Manufacturer To Supply Our Own Line Of H&R Brand Slewing Rings.

This offers our customers an alternative to expensive OEM parts, while still meeting or exceeding OEM specifications. These H&R brand slewing rings come with an **excellent warranty** and **your satisfaction is guaranteed**.

- Produced for H&R by one of the world's leading manufactures to meet or exceed OEM specifications.
- Advanced production technology utilizing CNC lathes, grinding, machining, cutting, and quenching processes.
- Specifically designed for heavy duty application requiring high capacity for axial, radial forces, and tilting loads.
- Solutions for all major manufactures supporting 3.5 to 150 ton excavators in every application.
- Backed by a 1 year warranty.

ABOUT H&R

Locations to Serve You

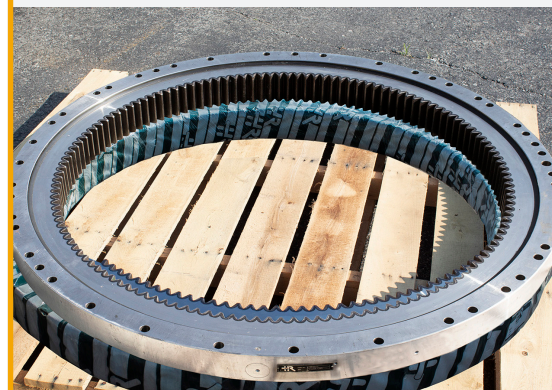

We have the ability to get your products where you need them, fast and at a reduced cost.

Massive Inventory

With hundreds of final drives ready to ship, we're the largest supplier in North America and a trusted source in the industry. Providing off the shelf OEM replacements, custom application bearings, and reverse engineering services, we have a solution for every need.

Parts Specialists

Over 10 highly-trained Parts Specialists to help work with you in supplying the parts you need to get you back up and running fast.

CONTACT ONE OF OUR **KNOWLEDGEABLE PART SPECIALISTS** TODAY!
